Dear Sister Edith:-

I have got tired again of wait-
-ing for a letter from you & as
Jas has a letter he has been
wantin me to mail for him to
Jack I thought I might as
well write a few lines again.
we are all pretty well, but
Sarah is just starting in "I
am afraid" with the Gripp. chills
& fever & ache all over, I have had
a touch of it & then Geo. got it
so it seems to be catching,
but Geo is getting over his
now & I hope none of the rest
get it. You know Emily Day
Mc. Trythal? whos husband was
killed a year ago last Summer &
left with 6 small children -
well she is now lying in
Lakeside Hospital with Pleural

neumonia & Sat. night Drs. & nurses
all gave her up, but since has had
a slight change for the better
they have been giveing her oxygen
since Sat. morning until yester-
day moring when they took it
away & now she has asked for her
children for the first time. but
she is verry sick yet. they have
her in a private room all by
herself & a nurse all the time &
the best of care that can be given
her & we think now with ~~now~~
relapse that she will be
spared to her little flock. her
Mother is almost totaly blind
& her health is verry poor & the
Dr says she is likely to drop off
at any time.
Aunt Lydia Santee was burried
about 6 wks. before James Brown.
Mother Ls. health isent verry good this
winter but her children are all
well. Ava & Johny are still

the same - worse if anything.
her folks are all well the last I
heard she is out L.A. or our house
2 or 3 time a wk.
~~a~~ I see by this mornings
paper one of our Million airs
was killed in Los angeles
yesterday returning from the
beach in his auto.
a couple of our neighbors
has returned from there after
6 wks. visit. & a Mr Becker that
used to hang out at the Eng. house
is now there for his health.
We have had a very nice mild
winter here - the coldest was 4
above. last night it snowed just
enough to cover the ground &
now it is nearly all gone
& the sun is shining bright.

Edith you was saying about moveing, if so where? why dont you write & tell us about it & give us your address so we will know where to address our letters to you. I never hear from Katie. I have a letter from Mr Crosier I must answer - he inquired after you, he hasent been verry well this winter but is better when he wrote.

Well Edith I dont know of any more to say so will say good by & write soon

from your Loveing Bro.
